

# Introducing EPCglobal

## Global Engineering Staffing Specialists

EPCglobal has over 20 years experience in staffing major Oil and Gas projects. Since 1986 our staff and contractors have worked on projects in over 40 countries. Our offices specialise in the supply of staff and contract engineers to major clients in the UK and around the globe.

### Expanding Your Options

The international Oil and Gas market has been hit by the same skills shortages affecting the whole recruitment sector. Our new approach to Candidate Attraction involves a dedicated team of 10 focused entirely on generating new candidate activity through structured advertising campaigns, international exercises and targeted referral projects. We are uniquely placed to increase our clients' options and deliver new talent.

### Our Community

There are currently over 120,000 engineering professionals registered with us. Our technology developed, in conjunction with the world's largest Oil and Gas companies with a \$10m investment, provides fast and simple access to this community. We offer our clients the ability to access this community through our teams of experienced consultants.

### Our Teams

Our teams are spread across 8 global offices. Our Recruitment Consultants will work with you to deliver against your exact needs, utilising their industry expertise and key recruitment skills. In addition to standard recruitment services, we offer full management services and headhunting for senior positions, drawing on our extensive network of senior industry figures.

### Our Focus

Upstream  
Downstream  
Onshore  
Offshore

Subsea  
E&P  
Pipelines  
Process

Construction  
Project Services  
Geosciences  
Materials

# About Us

## Our Clients, Industry & Services

### Our Clients

EPCglobal's clients are at the very top of their respective fields. In various sectors throughout the industry we are working alongside established giants and fast growing new organisations as they continue to strengthen their workforces for new projects. We don't work with everyone. In a market where skills are in short supply we choose to focus our efforts on a relatively small number of customers globally Our clients include:

### Our Industry

EPCglobal was established for engineers, by engineers. We have a detailed knowledge of every sector we work in and our people have all developed a full understanding of their specialisation. We only work in the EPC sector. All of our attentions are directed at building and refining the world's largest available source of experienced professionals. Our business is divided by discipline, so each of our teams work exclusively on one sector of the industry in which we have supported some of the world's most high profile projects. We're proud of our clients' achievements and of the part we've played in contributing to their success.

### Our Service

Since its inception 20 years ago, the company has built on its ongoing success to grow steadily in the global market place. We now have 8 offices, servicing varying elements of the engineering community and our staff and contractors have worked on projects in over 40 countries across 5 continents. From Denver to Washington, from London to New Delhi, our community consists of over 100 recruitment staff, 120,000 specialist candidates, and some of the world's foremost companies. In the changing global marketplace, we are positioned to deliver the best possible service to our clients. We are able to quickly mobilise resources anywhere in the world.

### What our customers say ...

"One of Bechtel's competitive advantages is the use of EPCglobal's recruitment services. Access to EPCglobal's network of specialist engineering staff is an attractive proposition for anyone who, like me, has responsibilities for hiring professional and quality minded personnel for major projects, to deliver against tight deadlines. I always seek their involvement, especially for skilled and senior people."

Rob Van Duyl  
Commercial Manager  
Bechtel

"The reason I only work with EPCglobal is more than just access to the best opportunities, a flawless payroll and all the basics, it's about support from people I know and trust. The best thing about these guys is that they act in the interests of their people. They know their business benefits in the end by helping us make the right decisions."

Carl Swann  
EPCglobal Contractor
